

"El saber de mis hijos  
hará mi grandeza"

UNIVERSITY OF SONORA

Through its Divisions

**CALLS**

to the

November 23RD. to 24TH. 2016

**THEORY OF SPEECH TO PRACTICE**  
*in business, government and academia*

"All for a Collective  
Strategic Action"

### Objectives:

Create a space for analysis, discussion and exchange of ideas, experiences, plans and research projects that promote the development and strengthening of a critical mass around the theme of sustainability and its current problems.

At the same time, it seeks to generate and share new knowledge, commitments and actions that lead to the best practices in the field of education, social participation, community work, institutions and government work in seeking solutions to the negative impact on the environment brings negative economic development of society today.

### Themes

- I Environmental Education and Sustainability.
- II Looking Ahead To the Society and Culture: Human Development and Quality Of Life.
- III From Economics: Public Policies For Sustainable Development.
- IV Managing Partner-Government Tackles the Problems of Sustainability.
- V Technological Innovation for Sustainability.
